contour., the high-impact adjustable and portable exhibit

PRODUCTS
MADE IN
CANADA

contour. is a portable exhibit solution featuring a tubular aluminum frame covered in stretch fabric.

Lightweight and compact, **contour.** can be taken anywhere thanks to its wheeled transport bag, and can be assembled quickly without any tools or extra parts.

contour. is modular and adjustable: the frames connect together while optional accessories like a TV, shelves and lighting make it possible to meet all the needs of exhibitors.

With **contour.** you benefit from a long-lasting, adjustable and reusable exhibit that lets you control costs and reduce your environmental impact.

Carry this booth by car!

A fully DIY solution!

100% self set-up

Simple and intuitive setup

A **contour.** frame can be set up and dismantled in less than 10 minutes without requiring any tools or extra parts.

Setup instructions for each **contour.** frame explain how to assemble them in very simple terms.

The tubes interlock with connectors, and a color-coding system is found on each frame for totally intuitive assembly.

The graphic slips over the frame easily like a sock and covers the frame completely for exceptional execution.

Tubes connect together with one click

The graphic slips over the frame...

...and closes with a zipper

Self set-up

A fully DIY solution!

100% portable

Take **contour.** anywhere with ease

contour. is an ultra-compact, lightweight solution that you can take anywhere thanks to its wheeled transport bag, or have it easily shipped via a courier.

Everything is stored away and protected: the tubes are attached using securing clips and the graphic is stored in a plastic bag.

Wheeled transport bag or hard.case XL

Transport it in a car...

...or ship it via a courier

contour. is the only exhibit line compatible with the formats authorized by trade shows in Europe and North America.

Mix and match to build your configurations

100% adjustable

contour. frames are available in standard and custom formats

Connectors are used to link the frames together at 45°, 90° and 180° angles

A wide range of accessories are available: LED.lights, TV frame, shelf frame, arches

contour. is adjustable: start with a single frame and add more as needed
